

<b>Different solution</b>				
<b>I want to develop A demo which i can offer to my customer.</b>		<b>My customer have their own website And we only offer this appartment solution.</b>  <b>We give customer an URL which they can link to from their website.</b>  <b>We are providing a hosting.</b>	<b>Customer want website + appartment solution</b> <b>What platform we offer then.</b> <b>NOT Wordpress because that is not secure.</b>	<b>Customer not buy website</b>
<b>Apparment solution - Sold / not sold</b>				
<b>Whole solution and all features must be scalable, new option can easily be added into solution from backend.</b>				
<b>Front end elements/feature that need to displayed</b>			<b>Back end</b>	
			See total list of appartment in back end. each appatment can be selected with add Edit, publish/unpublish, delete  Login User managment Password reminder  Secure solution, not hacker holes in plugin and script.	

1.	<p>Logo of project / or company</p> <p>Top left text display:</p> <p>Finn din bolig (means find your apartment)</p> <p>Ledige boliger: (shows number from database which appart stil not sold and are available)</p>	<p>Possible to upload logo from backend</p> <p>Top left text add/edit/update</p> <p>Ledige boliger: availalbe apartment automatically calcualted from database and displayed.</p>
2.	North and south direction shown with 2 img.	Both img b e added from back end Update, edit and add.
3.	<p>3D view of project and buildings</p> <p>I will provide the 3D view as jpg file</p>	<p>Add total view img,</p> <p>Add, edit , delete</p>
4.	<p>Filter button - + rest filter button also</p> <p>Contain 3 parameter that is connected to database.</p> <p>BRA m2 - see apartment from size 52 - 151 m2</p> <p>Pris - see apartment for price between 2710 000 - 7460 000</p> <p>Soverom - see apparment with 1 - 3 bedrooms</p> <p>Check the URL for how this works.</p> <p>this only sort and display those apartment which are for sales. Sold not appart</p>	<p>BRA m2 - possible to edit 52 - 151 range</p> <p>Price range can edit from backend</p> <p>Bedroom 1-3 range can be edit from backend.</p>
5.	<p>Green color - mark a apartment with green color</p> <p>And it is for sales</p> <p>Red color - when it is sold</p> <p>Orange color - when it is reserved</p>	<p>Select an apartment from backend,</p> <p>Select green when sold as checkbox</p> <p>Red checkbox when sold</p> <p>Orange checkbox when reserved</p>
6.	<p>Ligthing effect on apartment which are available</p> <p>Note when lighth shows it is not green</p>	<p>This ligthing effect is generated automatically with info from database</p> <p>Based on info on which apartment is available</p>
7.	Green and red box must be responsive. Do not change when we see solution on mobile, pc, tab, chrome, Safari, Mozilla, Opera browser	Green box must be tested and also be visible in backend so we know that this apartment is not sold yet.

8.	<p>Mouse over effect - Info box, must also work on mobil and tab. check URL to see how this works.</p>	<p>All info displayed in info box must be</p> <p>Add ,edit and delete, small img plan must be select here for info box</p>
9.	<p>Mouseover info box:</p> <p>Hus G (building name)</p> <p>Green color - Ledig (means it is available)</p> <p>Pris, BRA, Soverom (display this information)</p> <p>2D plan will be provided by me</p> <p>Red color info box mouse over effect must also work see URL</p>	<p>All this info/feature must be possible to add , edit, delete</p> <p>Possible to add more options here from backend.</p>
10.	<p>Click on appartment</p> <p>Get new page with plans and more info.</p> <p>Logo on top of page.</p> <p>Button/ img to back to whole project to select an other appartment. show this img on top of page.</p> <p>This img also marked in green which appartment we are looking at.</p> <p>Orange button: Meld interesse (mean contact us if u are interessted)</p> <p>This info with design new icon displayed in frontend for each appartment.</p> <p>Status</p> <p>Ledig</p> <p>ID</p> <p>Hus I</p> <p>Pris</p> <p>6 560 000</p> <p>Soverom</p> <p>3</p> <p>BRA kvm.</p> <p>143,1</p> <p>P-rom kvm.</p> <p>138,8</p>	<p>All infor this point must be registered and add from back end.</p> <p>Note this</p> <p>Also possible to add new options.</p> <p>Add</p> <p>Edit</p> <p>Delete</p>

<p>Omkostning 23 570</p> <p>Felleskostnad 2 258</p> <p>Pris inkl. omk. 6 583 570</p> <p>XXX</p> <p><b>Below this display this information:</b></p> <p>Adresse Storgata 13</p> <p>Etasjer 3</p> <p>Terrasseareal m<sup>2</sup> 32,8</p> <p>Back button.</p>
